Level 3 preparation (parts D, E, F)	Main (VT, MT, ET, PT)

**• Refresher courses for NDT specialists.**

**• A shortened course of preparation for exams when renewing a certificate of competency in all NDT methods.**

Training is carried out according to approved programs with the participation of highly qualified teachers with level 3 qualifications and extensive practical experience in the field of non-destructive testing. Among the teachers there are NDT specialists, also certified in the field of industrial mountaineering according to "IRATA".

Teaching is conducted in Russian with the possibility of teaching the practical part of the course in English.

According to the results of mastering the programs of training courses, students receive a certificate of a standard form.

Upon successful passing examinations in the Personnel Certification Authority, students receive a certificate of appropriate qualification in accordance with EN ISO 9712 of the Welding Research Institute - Industrial Institute of the Slovak Republic.

The schedule for training courses for the foreseeable future is currently being formed and will depend on the number of applications submitted.

We have the opportunity to conduct training courses on the basis of your enterprise, if the number of specialists declared for training is 5 or more people.

The cost of training courses depends on the number of students in the group.

We have competitively low prices. There is a system of discounts for enterprises that have sent 3 or more people to a training course.
